

TOP, TRAINED TALENT READY TO WORK FOR YOU

Hospitality Opportunities for People (Re)Entering Society (HOPES) is a reentry program for adults 18 and over who are currently incarcerated and within 20–365 days of release. HOPES assists with transitioning back into the workforce through the restaurant and food service industry.

Education, industry-specific training, and secure employment are key factors in reducing reoffending behavior and helping individuals have a positive impact on society after incarceration.

WHY HIRE HOPES PARTICIPANTS?

- HOPES participants have ServSafe certification and are ready to work right away.
- HOPES participants have undergone rigorous training, including personal responsibility, communication, attitude, learning, customer service, and industry-specific skills.
- The NRAEF and Community-Based Organizations (CBOs) will support employers every step of the way for the first twelve months. Our goal is to ensure the participants are retained in your business as high-quality employees.
